Family School Partnership
We are very lucky at St Vincent's to have an excellent art program running led by the talented Mrs Angela Thomas. This term all grades are studying graduated tone and light sources and have produced some excellent results which are displayed through-out the school. We encourage you to take a minute or two to check these out. You will find some on the windows at the entrance to the office, others in the library foyer and inside the library and also in the entrance area to the Gr 5/6 room. The children are learning a number of techniques and we think their work is quite stunning for primary aged children. I know Angela always welcomes parents into her classes so please come along if you would like to watch your little artist in action!
